PROJECTS

SOMA ANIME - API-DRIVEN WEB APPLICATION | REACTJS

- I built and designed this website with the inspiration to never use another anime website again and be pestered with unnecessary ads.
- The application has the the following features: Changes Theme, Search Function, Automated Fullscreen and Automated Next Episode. These features are added for convenience.

KODEGO MINI PROJECT 1 - MULTI-PAGE RESPONSIVE WEBSITE

- I was responsible for the development of the project's home page, header, footer, component's page, and some product detail pages.
- I was also responsible for the interactive function in the products detail page

KODEGO MINI PROJECT 2 - API-DRIVEN WEB APPLICATION (BEST IN MINI 2)

- I was responsible for the conceptualization, design, and development of the project's pages, header and footer.
- I was also responsible for integrating the API to the web application's pages.

EXPERIENCES
